

Autochair Hoists; Integrated solutions for lifting Scooters, Power Chairs and Wheelchairs into a vehicle.

Transferring a scooter, powerchair or wheelchair into a vehicle with Autochair (200kg capacity shown).

Autochair is Motability dealer of the year 2012 and the leading provider of scooter hoists in UK and Europe. Motability, a large UK charity, and has helped over 3 million disabled people lease a car, scooter or powered wheelchair. MobilityCare is the proud importer of Autochair.

Autochair and MobilityCare can provide you with an integrated solution to lift your scooter, wheelchair or powered wheelchair into your vehicle.

1. We provide a range of lifting capacities; Mini Hoists; 40kg, 80kg, Olympian Hoists; 100kg, 150kg and 200kg.
2. We provide the Mini Hoists as folding hoists with the option of 2 way or 4 way power lifting and moving assistance. Olympian Hoists have 4 way power.
3. You have the option of cabled or radio remote control.
4. Uniquely we provide a range of brackets and connectors to balance your scooter or wheelchair in space as you lift and transfer.
5. The installation fitting kit for your Autochair Hoist can be specific to over 200 vehicles ensuring a tailored and economical solution if pre-booked. Universal kits are immediately available.
6. We can offer a bundled package of **Hoist & installation plus scooter, powerchair or wheelchair.**
7. Our Australian wide dealer network can help you make the perfect choice.
8. We can advise you if your proposed vehicle purchase is suitable for your scooter, powerchair or wheelchair.

Please call or email us to book your free 1 hour no obligation consultation. You should take specific advice from you health professional (usually an Occupational Therapist). This would normally be done in conjunction with your free consultation.
